

# **Work Package 2C**

## **Feedstock and Standards**

**Thursday 11<sup>th</sup> October**

**Vicenza**

**Michael Doran**

# Workshop

- **09:00** Michael Doran : Background
- **09:10** Ioannis Eleytheriadis : Variations in Biomass Composition
- **09:30** Jaap Koppejan : Biomass Combustion
- **09:50** Bill Livingston : Biomass Co-firing
- **10:10** Claus Greil : Fluidised Bed Combustion
- **10:30** General Discussion

# Background

## Objectives

- Identify standards
- Identify the characteristics of feedstocks for the three technologies
- Assess quantity of feedstock availability
- Particle size and constitution
- Fuel contamination

# Issues Outstanding

- Relationship between fuel characteristics and the process
- Suitability of feedstock for each technology
